### How to Drop When the Ball Keeps Rolling Away - 14.3c

**DIAGRAM #1 14.3c BALL MUST BE DROPPED IN AND COME TO REST IN RELIEF AREA**

		
The ball is dropped in the right way under Rule 14.3b and the ball comes to rest in the relief area, so the relief procedure is complete.	The ball is dropped in the right way under Rule 14.3b, but comes to rest outside the relief area, and so the ball must be dropped the right way a second time.	The ball is dropped in the wrong way as it is dropped outside the relief area, and so the ball must be dropped again in the right way.
